

Much more than just water filters

## Wellness Premium Whole Home Filter – MG III Basic Installation Guidelines:

### What is the best location for my Wellness Whole Home?

The **Wellness MG-III** treats all water entering the house and is located prior to the hot water heater(s). It is ideally installed on a flat, stable area, usually a solid, concrete floor, either at the side of a residence, basement or garage. Drainage for back-washing is also required.

The ultimate location will depend on a number of factors including:

- The location of pipes where the mains water enters the house
- Ease of access for installation and service
- Plumbing layout and draining access
- Stable floor/concrete

A covered/protected outdoor location is a possibility. In this situation, we recommend installing the transformer and plugs inside a waterproof, electrical box. Moreover, the unit must not be installed where the temperature may fall below 40 (degrees) F.

### Do I need electricity?

The MG-III auto-backwashing function runs on an electronic timer that requires access to power (120v).

## Wellness Premium Whole Home Filter – MG III Basic Installation Guidelines (continued):

### Will the MG III affect the pressure in my house?

The inlet/outlet pipes of the **MG-III** are 1-inch diameter. Maximum flow is 10 gallons per minute (equivalent to four showers running at the same time).

Pressure may be affected if demand/volume is too great. The **MG-III** is designed to service a typical 2-3 bathroom, family home. Larger homes, estates and small commercial applications usually require a higher-capacity set-up. Please [contact I Love My H2O](#) for more information.

SPECIFICATIONS	
Application	Small - Medium Residential
Filtration life	7 - 10 Years (5,000,000 gallons)
Maximum flow	10 gpm @ 50 psi
Dimensions (inches)	(H) 56" x (D) 11"
Dry weight	130 lbs.

Please note: The Wellness™ MG-III is designed for use with municipal water. Non-municipal water (eg: well water) requires pre-filtration. [Contact I Love My H2O](#) for further advice.

### **IMPORTANT:**

*To validate the 3-year warranty, the **MG-III** must be installed by a licensed plumber. I LOVE MY H2O can provide installation in Los Angeles. If you are located out-of-state, we are very happy to work with you and your licensed plumber to facilitate satisfactory installation. [Contact Us.](#) 1 800 618 0253*
